Central Control Screen (CCS-7)

The CCS-7 Central Control Screen provides a high performance, intuitive and multi-zone user experience for comfort control applications when utilised alongside the Titan Products NetMaster 2000 and FCU-503 range of controllers.

Offering multi-zone adjustment of set points and control modes along with the setup of flexible time schedules and holiday periods via a fully capacitive touch screen, the in-wall 7 inch screen delivers a complete comfort control interface.
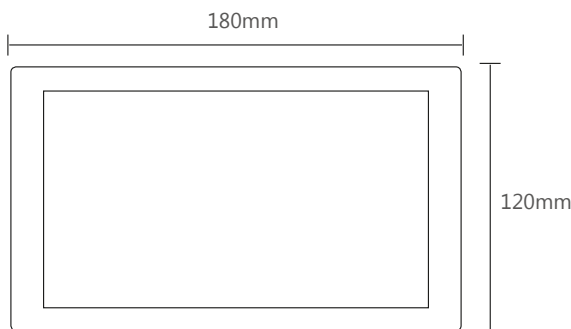

Available in attractive white or black finishes, the CCS-7 is provided with a wall bracket for ease of installation.
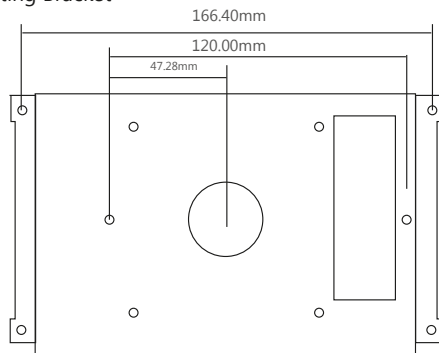

Specification

Operating System:	Android 6.0
Display:	7" IPS Display
Display Resolution:	1024 x 600
CPU:	8-core ARM Cortex CPU, 1.2Ghz
Power Supply:	9-36V DC
