

Blending design and function

NEW LOOK, IMPROVED FUNCTIONALITY, SAME HIGH QUALITY

Titan's room sensors have undergone a total redesign, covering all our temperature, humidity and CO2 sensors. Combining modern, slimline aesthetics with Titan's high product quality and reliability, the Gen 3 Room Sensors blend design and function to set a new standard.

DESIGNED FOR:

OFFICES

HOSPITALS

SCHOOLS

RETAIL

NEW LED HALO

Introducing the HALO LED indication. Designed as a simple yet informative interface that aids the understanding of both the sensor status and its environment. The HALO is the ideal companion for understanding CO2 levels to maximise occupant comfort and well-being.

DESIGNED WITH YOU IN MIND

- **MODERN AESTHETICS**
Clean, slimline, discreet appearance
- **PLUGGABLE TERMINALS**
Aids first and second fix installation
- **BRANDING OPTIONS**
